SUMMARY

I am a Full-Stack Developer with a unique background in both finance, insurance and psychology. My expertise in modern financial technologies and passion for research in consumer behavior and InsurTech make me a valuable asset to organizations looking to enhance their digital presence.

With technical proficiency in JavaScript, TypeScript, React, and Node.js, I bring a data-driven approach to web development and design. My commitment to excellence and passion for Triathlon are reflected in my work.

TECHNICAL SKILLS

JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Canvas, jQuery, React, Redux, PostgreSQL, JSON Web Token, SQLite, SQL, MongoDB, Node.js, Git, GitHub, REST API design, Agile, Web App Architecture (MVC)

TECHNICAL PROJECTS

AutoTeile - [Github](#)

Web Application is a comprehensive web platform that enables users to purchase automobile components while providing administrators with the ability to manage their merchandise via a modern, fully-functional control panel. The user interface is built using React, while Node.js powers the backend infrastructure. The application relies on MongoDB as its database solution.

- Developing and executing strategies for reusable intricate user interface elements
- Crafting precise designs for diverse devices
- Constructing intricate backends with JWT
- Verifying user identity with Firebase and email authentication
- Employing React Query and Mantine bundles

JS Quiz - [Github](#) | [Demo](#)

The app presents multiple-choice questions and tracks the user's score, providing instant feedback on their answers and a final score at the end of the quiz.

- I constructed a responsive JavaScript quiz using HTML, CSS, and JavaScript to ensure optimal performance on multiple devices.

EXPERIENCE

Senior Product Manager

Saint-Petersburg, Russia

[\(RESO-GARANTIA\)](#)

09/2020 - 06/2022

- Product Development: Collaborated with cross-functional teams to design and deliver product features and functionality that met the needs of international customers.
- Testing: Conducted thorough testing of the app on different devices and web browsers to make sure it worked well and was easy to use for all users.
- Design: Worked with the product and design teams to create sketches, models, and detailed representations of the app's user interface, ensuring it was both functional and attractive.

Product Manager

Saint-Petersburg, Russia

[\(UIC\)](#)

06/2014 – 08/2020

- Marketing campaigns: developed and executed targeted digital marketing campaigns to raise awareness of the app and drive traffic to the platform.
- Outreach programs: implemented outreach programs to educate insurance agents and brokers about the app and encourage them to promote it to their clients.
- Product optimizations: achieve a sustained rate of 50 policies sold per day through the app, providing a significant boost to the business and demonstrating the app's potential as a valuable tool for insurance customers and companies alike.
